## **Application for Electrical Engineering**

Dear Sir or Madam:

I have learned about your job announcement by NPIC on (2012 -2016). According to your job announcement that posted from Head of Electricity Faculty at NPIC, I am deeply interested. Therefore, I would like to apply for the position as **Electrical Engineer** in your company.

Recently, I have graduated in Faculty of Electricity, receiving Bachelor of Technology in Electricity. During my studies, I have learned the subjects (Wiring System, Electrical Machine, Electrical Power system, Electrical installation for Building and Factory, Motor Drive, Auto-CAD and Elect-CAD). In addition, I am an enthusiastic person who likes to work with the team environment and wishes to learn new things and update my skill and knowledge.

I strongly believe that the skill I have acquired in my study would qualify me for the position that I have applied.

Last but not least, I would like to attach my curriculum vitae with the detailed information to make it convenient for you to finalize your decision. I would appreciate the opportunity to discuss my qualifications with you at mutually convenient time.

I look forward to hearing from you soon. Thanks for your consideration.

Yours faithfully:

- Signature :

- Full Name: THANN SINORNG
