Dear Sir/ Madam,

I have known about your job announcement by Khmer-Engineerjob. I am deeply interested and eager to have an interview. My purpose in writing to you is to express my strong interested in being considered as **Electrical Engineer** in your company.

In short, I have Graduated Bachelor Degree of Electrical Engineer at National Polytechnic Institute of Cambodia (NPIC). During my studies, I have learned the subjects such as Electrical power system, Electrical Distribution, wiring system, Electrical Installation for building and Factory, Motor drive, Motor control, Auto-CAD, Pneumatic system, PLC system, Project Management, Engineering Management and I had been internship for 2 months in Central Development Engineering Co., LTD.

In addition, I am enthusiastic person who like to work with the team environment and wishes to learn new things and update my skill and knowledge.

I strongly believe that I can put myself to be a good staff in your company. I am eagerly and anxiously looking forward to hearing from you. Thanks for your consideration.

Faithfully yours

With kind regards and thanks

From: CHIM BORAT
