January 23, 2017

Dear Sir/Madam,

I am a mechanical engineer graduated from Institute of Technology of Cambodia (ITC). In response to your job vacancy posting for a MEP Supervisor I have attached my resume for your consideration. I believe that I am an excellent candidate for this position as I have described below.

My position and years of experience working as MEP supervisor (MVAC, Plumbing, and EL&ELV) often includes troubleshooting and analyzing problem to find the best solution. It has given me a great knowledge and understanding of MEP work processing of project.

Moreover, my work is being a consultant engineer needs to do inspection work, comment and solving site issues including coordination work. And i have to check or review design tender followed the standards and codes (BS, NFPA and etc...), if have any clarifications & modification work I need to rise up documents request for information or for approval to designer so that it was tough me to understand of project management and documentary is required.

Thank you for your consideration. I would very much appreciate the opportunity of a job interview and I look forward hearing from you soon.

Sincerely,

Khean Sovannrith

KHEAN Sovannrith

Date of Birth : 01/Jan/1993

Marital Status : Male

Place of Birth : Sleang Village, Prey Chhor District, Kampong Cham Province

Current Address : #43, St.265, Sangkat Teuk La'ak III, Khan Toul Kouk,

Phnom Penh, Cambodia.

Letter of Recommendation

Date: **08 September 2016**

To whom it may concern,

In his capacity as MEP Coordinator for our T Galleria Angkor Project, Mr. Khean Sovanrith proved himself to be a valuable member of our construction management team. We found him to be attentive and thorough in dispatching his duties. He was receptive to new challenges and proved willing to learn where the technical character of the project was outside of his previous experience. I would not hesitate to recommend him for a similar position in our future projects.

Best Regards,

A handwritten signature in blue ink, appearing to read "Michael D. Sweet".
